

Kendrick Barnes

Kendrick "Ken" Barnes was the Chief Information Officer (CIO) at IRP Solutions. **Barnes has 15 years of experience in Information Systems Management, software development, systems integration and architecture.** Barnes lent his expertise to corporations such as Cendant, Merkle, Great West Life, UL, Western Union, and Comcast Communications.

Barnes is an expert Java/J2EE Developer whose responsibilities included designing and building applications for various internal functions to allow seamless integration of client bids, sales/work orders, inventory, repair, reporting, and project management. **Barnes developed his own Project Management tool called @Focus designed to streamline, track and manage project deliverables.**

Barnes' father is a Retired Veteran, who served twenty-two years in the U.S. Army with two tours in Vietnam. His father's passion to protect this country rubbed off on Barnes and he was compelled to work with Gary Walker on creating the CILC software tool that was customized to meet internal needs of DHS, NYPD and the Philadelphia Police Department to name a few.
